

THE HOUSE OF RECAB

Thank you for contacting us. Below are some of the pictures you requested:

FEEDING

We have over 200 children here at the house of Recab. Feeding them has always being a challenge. The children consume about 2 bags of rice, 2 bags of beans, 2 bags of corn every week.

EDUCATION

We need more classroom blocks and teaching materials, stationeries and resources to effectively carry out the Classical Christian model of Education we wish to embark upon.

STAFF

Currently we have about 34 members of staff including NYSC members. 30 of them are on pay roll while four are volunteers. Settling the payroll is a challenge.

FARM

Yes. We have a farmland donated to us by concerned individuals, but we are yet to start farming activities on the land due to insufficient funds, man power and machinery.

ARTS & CRAFTS

Our children are involved in a number of skills acquisitions in areas like shoemaking, liquid soap and air freshener production

We look forward to hearing from. Thanks
